

Industrial aggregation between A2A and AEB gets clearance from the Italian Competition Authority

Milan, 22 October 2020 – Yesterday evening the Italian Competition Authority (AGCM) authorized the industrial territorial aggregation between A2A S.p.A. and Ambiente Energia Brianza S.p.A. - AEB (the multi-utility of the Brianza region with several municipalities of the area as public shareholders, and the Municipality of Seregno as leader), subject to the compliance with some commitments.

Such clearance was the main condition to be met in order to complete the envisaged transaction, aimed at allowing the entry of A2A into AEB's share capital with governance rights that will enable both consolidation and AEB's management and coordination. The project also assures that the public shareholders will retain the majority of shares of AEB and have a key role, being entitled to appoint the President and the Vice-President of the company.
