

COMPANY SECURITY POLICY

The ongoing process of risk management in a company requires an overview to understand the true vulnerabilities of an organization as a whole, across functional and business lines.

The A2A Group in the Security sector adopts an integrated and holistic security system through which it guarantees an adequate security approach, resorting to the best standards of the sector to define the direction of the needs in full respect of the regulatory context.

Therefore, with a view to continuous improvement and in line with the values defined by the A2A Group and the principles of General Management, the following activities are identified as priorities:

COMPLIANCE

Comply with current legislation, agreements and regulations, including voluntary covenants, as well as with Security standards.

SUPPORT

Follow business developments to ensure the appropriate support to protect and implement its growth, working in a synergistic and coordinated manner with all functions, structures and companies of the Group.

INNOVATION

Constantly innovate in a sustainable manner strategies, policies and operational plans, aimed at preventing and overcoming any culpable or malicious conduct that could cause direct or indirect damage to people and/or to the company's tangible and intangible resources, including through the use of the most advanced technologies.

SHARING

Raise awareness of risks to improve the ability to reduce them through collective participation. Security is only real if it is participatory.

PARTNERSHIP

Security is the function that, in constant connection with the authorities, tries to satisfy constitutionally relevant rights, creating a balanced and effective synergy between public and private.

PROTECTION

Ensure protection systems are designed and implemented in a manner consistent with typical threats and associated probabilities of occurrence.
